Grand Street Settlement  
Early Head Start Child Care Partnership  
(EHSCCP)  
Annual Report to the Public  
July 2015-June 2016 (FY16)

(A) The total amount of public and private funds received and the amount from each source
The EHSCCP program is 100% funded by the federal grant. The total EHS revenue for FY16 was $2,127,825.

(B) An explanation of budgetary expenditures and proposed budget for the fiscal year
The expenditures of $2,127,825 was supported by revenue from the Office of Head Start. Budget and actual are available from Grand Street Settlement, Inc. upon request.

(C) The total number of children and families served, the average monthly enrollment (as a percentage of funded enrollment), and the percentage of eligible children served
In 2015-2016, GSS EHSCCP served a total of 71 infants/toddlers in our center-based classrooms and family child care program with an average monthly enrollment of 46 (41%). Of the 112 available slots the percentage of eligible children served was 63%. The program served 69 families.

(D) The results of the most recent review by the Secretary and the financial audit
The FY2016 financial audit was accepted and approved on March 17, 2017.

(E) The percentage of enrolled children that received medical and dental exams.
All EHSCCP participants had a medical home and 27% of participants had a dental home providing continuous and ongoing health and dental care, including examinations.
(F) Information about parent involvement activities
During the first year of the program, EHSCCP focused on enrollment. Parent involvement mainly consisted of sharing information about the program. At each site, a Family Advocate develops services to foster caregivers’ roles as primary educators, nurturers, and advocates. Simultaneously, GSS offers services to parents in order to assist them in reaching their own personal and family goals. Assistance includes identifying service providers, help with scheduling appointments, serving as interpreters, and advocating for the family.

(G) The agency’s efforts to prepare children for kindergarten
EHSCCP
Year 1 of the EHSCCP program focused on obtaining child care providers and orienting teachers to the Head Start approach and enrolling children in the program. Teachers enrolled in Child Development Associate (CDA) credential programs.
School Readiness & Preparation for Kindergarten
GSS’s general approach to child development and education is one of nurturing children, recognizing parents as their child’s first and most lasting teachers, and providing a developmentally appropriate environment where children are comfortable to explore, grow and develop.
Our approach to School Readiness is to develop annual goals that reflect the five central domains in the Head Start Early Learning Outcomes Framework and is aligned with the Creative Curriculum, and our assessment tool, Teaching Strategies GOLD.
Developing School Readiness Goals (SRG) includes on-going communication between directors, coordinators, teachers, parents/guardians, and consultants. Input from all sources is important to ensure that chosen objectives are relevant to the community we serve and the education systems that children will transition to.
Education Coordinators provide on-going training for teachers to support effective implementation strategies that positively impact children’s learning and development. SRG implementation is monitored for accuracy and consistency through data reports that indicate measurement of growth over time, child education file reviews, informal classroom observations, and through reliable tools such as CLASS (http://teachstone.com/the-class-system/), and ITERS (http://www.ersi.info/).
Creative Curriculum
GSS uses The Creative Curriculum to support classroom learning and development. This curriculum supports individual differences such as dual-language learners, disabilities, life circumstances, and temperament. Planning for children includes information gathered from teacher observations of children’s interests, anecdotal notes, family input, and assessment results. The curriculum is aligned with the Head Start Early Learning Outcomes to ensure that all domains of learning are supported, planned for, and assessed.
Developmental Assessments
Teaching Strategies GOLD is an authentic, ongoing, observational system for assessing children from birth through kindergarten and provides individualized activities for enhanced student outcome data from each of the domains (Social and Emotional, Cognitive, Language, and Physical). Through ongoing child observations and a partnership with parents, teachers learn about the individual learning and development of each child. This information informs individualized and group planning, which supports positive outcomes for children in all developmental domains.

Head Start Transition into Kindergarten
Head Start works to support children and families’ transition into Kindergarten. With the collaborative partnership or community partnerships between Head Start and local charter and public schools this partnership is important in helping families assist with kindergarten applications, provide parents with site visits to local schools which will offer insight to the best decision and placement for their children. Transition/preparation includes Head Start teachers conducting a transition visit and parent teacher conference with families; these visits take place in November and December. Teachers share resources and information on school readiness which is crucial to kindergarten transition.
