Grand Street Settlement
Early Head Start Child Care Partnership
(EHSCCP)
Annual Report to the Public
September 2018-August 2019
(FY19)

(A) The total amount of public and private funds received and the amount from each source
The total amount received for FY19 was $1,825,275 from the federal award and $245,454 from in-kind contributions.

(B) An explanation of budgetary expenditures and proposed budget for the fiscal year
The expenditures of $1,825,275 was supported by revenue from the Office of Head Start. Budget and actual are available from Grand Street Settlement, Inc. upon request.

(C) The total number of children and families served, the average monthly enrollment (as a percentage of funded enrollment), and the percentage of eligible children served
In 2018-2019, GSS EHSCCP served a total of 151 infants/toddlers in our center-based classrooms and family child care program with an average monthly enrollment of 109 (97%). Of the 112 available slots the percentage of eligible children served was 135%. The program served 140 families.

(D) The results of the most recent review by the Secretary and the financial audit
The FY19 financial audit was accepted and approved on January 29, 2020.

(E) The percentage of enrolled children that received medical and dental exams.
97% of EHSCCP participants had a medical home and 14% of participants had a dental home providing continuous and ongoing health and dental care, including examinations.
(F) Information about parent involvement activities
Parent Involvement
Family Advocates organized activities for individual partner sites around topics such as health
and nutrition, social-emotional development and financial literacy. A majority of parent
involvement activities revolved around recruitment and enrollment and sharing information
about the program as an orientation.

Family Advocates develop services to foster caregivers’ roles as primary educators, nurturers,
and advocates. Simultaneously, GSS offers services to parents in order to assist them in
reaching their own personal and family goals. Assistance includes identifying service providers,
help with scheduling appointments, serving as interpreters, and advocating for the family.
The family partnership process begins as soon as the family is enrolled in the program and
continues to adjust as needed throughout the year. During the registration process and
throughout the year, families establish a Family Partnership Agreement describing the family’s
goals, Strategies for achieving each goal and a system for tracking progress. Examples of
Family Development Goals include housing assistance, employment/job training, kindergarten
readiness, and health training, among others.

(G) The agency’s efforts to prepare children for kindergarten
EHSCCP
The focus of EHSCCP’s school readiness is on supporting positive social-emotional
development for infants and toddlers. GSS EHSCCP provides teachers with trainings around
fostering nurturing relationships and positive learning environments.

School Readiness & Preparation for Kindergarten
GSS’s general approach to child development and education is one of nurturing children,
recognizing parents as their child’s first and most lasting teachers, and providing a
developmentally appropriate environment where children are comfortable to explore, grow
and develop.
Our approach to School Readiness is to develop annual goals that reflect the five central
domains in the Head Start Early Learning Outcomes and is aligned with the Creative
Curriculum, and our assessment tool, Teaching Strategies GOLD.
Developing School Readiness Goals (SRG) includes on-going communication between
directors, coordinators, teachers, parents/guardians, and consultants. Input from all sources is
important to ensure that chosen objectives are relevant to the community we serve and the
education systems that children will transition to.
Education Coordinators and the EHSCCP Child Development Specialist coordinate or directly
provide on-going training for teachers to support effective implementation strategies that
positively impact children’s learning and development. SRG implementation is monitored for accuracy and consistency through data reports that indicate measurement of growth over time, child education file reviews, informal classroom observations, and through reliable tools such as CLASS (http://teachstone.com/the-class-system/), and ITERS (http://www.ersi.info/).

**Creative Curriculum**
GSS uses The Creative Curriculum to support classroom learning and development. This curriculum supports individual differences such as dual-language learners, disabilities, life circumstances, and temperament. Planning for children includes information gathered from teacher observations of children’s interests, anecdotal notes, family input, and assessment results. The curriculum is aligned with the Head Start Child Outcomes Framework to ensure that all domains of learning are supported, planned for, and assessed.
In our Early Head Start home-based program, the home visitor uses Partners for a Healthy Baby to guide the interactions and resources shared with parents and expectant families during scheduled home visits. During socialization sessions, where parents and their children engage in a larger group environment, the play and relationship based approach of Creative Curriculum is used to guide the learning and exploration.

**Developmental Assessments**
Teaching Strategies GOLD is an authentic, ongoing, observational system for assessing children from birth through kindergarten and provides individualized activities for enhanced student outcome data from each of the domains (Social and Emotional, Cognitive, Language, and Physical). Through ongoing child observations and a partnership with parents, teachers learn about the individual learning and development of each child. This information informs individualized and group planning, which supports positive outcomes for children in all developmental domains.

**Head Start Transition into Kindergarten**
Head Start works to support children and families’ transition into Kindergarten.
With the collaborative partnership or community partnerships between Head Start and local charter and public schools this partnership is important in helping families assist with kindergarten applications, provide parents with site visits to local schools which will offer insight to the best decision and placement for their children.
Transition/preparation includes Head Start teachers conducting a transition visit and parent teacher conference with families; these visits take place in November and December.
Teachers share resources and information on school readiness which is crucial to kindergarten transition.
